I should have circled back around to you about this and I'm sorry- right before the proposed rule was going to published, all standalone CH got pulled from the schedule. Please do maintain your files, as I expect it is coming back around sooner or later.

Awesome Mike! This looks great. Only 2 things.

Let's take the Delaware River off of this one, and just label the occupied sections as "Occupied Reach."

Also, that little bit of the Pecos near the river name is missing again.

Thank you!
